

AJC Westchester Presents the Second Annual Energy Independence Day

Israel Plans to End its Dependence on Oil by 2020 Can We?

Join us for an important panel discussion led by **former CIA Director R. James Woolsey** in conversation with experts from the nuclear, biofuel, wind, solar and natural gas industries as we explore the viability of alternative sources of energy. We will also be giving our coveted "Green Award" to the Jewish institution in Westchester County that has done the most to "go green." This event is free and open to the public, but please consider a donation to help us defray costs. Sponsorship opportunities available.

SOLAR ENERGY

NUCLEAR ENERGY

NATURAL GAS

WIND POWER

BIOFUELS

AJC seeks a secure Jewish future in a more just world, believing that each pursuit depends upon the other.

Through AJC's 28 U.S. chapters, 8 offices overseas, and 28 official partnerships with communities around the world, AJC works to:

- Build bridges
- Advance security
- Promote human rights
- Support Israel
- Strengthen Jewish life
